September 7, 1994

We recently received your letter requesting the release of school records for [REDACTED]. We have also received a transcript request form from [REDACTED] School asking the same. We are willing to work with you in any way God allows us to under the present circumstances.

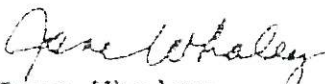

It is the Word of Faith Christian School policy not to release school records until all past tuitions have been paid in full. Also under state laws we are not obligated to release school records until all fees have been paid. However, we are willing to work with you, provided a few situations are cleared up.

First, we have heard from several people that since you left, you have made slanderous statements against the church, spread gossip and rumors and sowed seeds of strife among your brothers and sisters in Christ. If what we have heard is true, God would not allow us to release the girls' records until all matters of contention are resolved.

Second, if it is true what we have heard, repentance would need to come so that God's grace can be available for us to take the next step in working with you. As it stands, we can do nothing until we hear directly from you and have these matters cleared up. We need and want to know truth so righteousness can be established in every area.

We are willing to waive our policy to withhold school records until fees are paid, and forward the girls records to you immediately if you are willing to comply with what God would require in order to resolve this. Please let us hear from you as soon as possible.

Sincerely,

Jane Whaley

Superintendent of Word of Faith Christian School
